Rubina A. Heptulla, MD

Professor of Pediatrics & Medicine
Albert Einstein College of Medicine
Division Chief of Pediatric Endocrinology & Diabetes
The Children's Hospital at Montefiore

The Children's Hospital at Montefiore

Founded just a decade ago, and now one of the most advanced hospitals for children in the nation, The Children's Hospital at Montefiore (CHAM) is ranked among the nation's leading institutions in all 10 pediatric specialties by *U.S. News & World Report*—exceeding expectations and making an extraordinary impact in the field. Through the visionary leadership of its internationally recognized physicians and scientists, CHAM combines supreme clinical expertise, innovative research and leading-edge technology with an integrated, family-centered approach. As part of a premier academic medical center, CHAM is dedicated to training the next generation of pediatric healthcare professionals and is transforming the future of children's health.

Albert Einstein College of Medicine

Albert Einstein College of Medicine of Yeshiva University is one of the nation's premier institutions for research, medical education and clinical investigation. In 2010, Einstein received nearly \$200 million in support from the National Institutes for Health for major research centers in diabetes, cancer, liver disease, and AIDS, as well as other areas. Through its extensive affiliation network with five medical centers, Einstein runs one of the largest post-graduate medical training programs in the United States, offering approximately 150 residency programs to more than 2,500 physicians in training.
