“You must always be students – learning and
unlearning till your life’s end; and if gentlemen,
you are not prepared to follow your profession
in this spirit, I implore you
to leave its rank and betake yourself
to some third-class trade.”

Joseph Lister

Dean of
Academic Affairs

David Annunziato, M.D.
Director
Pediatric Education

Welcome: For more than forty years, our visiting professors lecture series has been a successful source of new and developing knowledge in Pediatrics. This year's topics have been chosen because of their current interest and/or new thoughts in the field. We invite you to join us in our newly remodeled amphitheater for this year's series of lectures. We know you will be uplifted.

Objective: We hope to bring you new knowledge and thoughts on topics currently being updated or being developed. Many areas of Pediatrics will be covered. As in the past, therefore, we expect to increase the pediatrician's knowledge, broaden his/her skills and by so doing, to help the pediatrician to better care for his/her patients. Their improved health is our major goal.

Credit: The Nassau University Medical Center is accredited by the Medical Society of the State of New York (MSSNY) to sponsor continuing medical education for physicians. The Nassau University Medical Center designates this "Live activity" for a **maximum of 30 (thirty) AMA PRA Category 1 Credit(s)**[™]. Physicians should claim credit commensurate with the extent of their participation in the activity.

CME credits will be issued at the end of the series. You must register at the desk to receive CME credit. Please complete an evaluation form. If there are any questions, contact the Pediatric Department at (516) 572-6177.

Nassau University Medical Center relies upon invited faculty participants in its CME programs to provide educational information that is objective and as free of bias as possible. In this spirit, and in accordance with the guidelines of the program sponsor, faculty participants are expected to indicate any commercial relationship that might be perceived as a real or apparent conflict of interest.
